Page 3, line 25, please replace "The increasing recognition over the past two decades", with
--Over the past two decades, increasing recognition--;

Page 3, line 30, please indent the first sentence;

Serial No. To Be Assigned

- Page 3, line 34, please replace “antigen” with –antigenic–;
- Page 4, line 8, please insert a comma after “acid” and replace “cause” with –causes–;
- Page 4, line 9, please insert a comma after “meningitis” and insert --allowing-- after “for”;
- Page 4, line 10, please italicize “*S. agalactiae*” and insert –been-- after “has”;
- Page 4, line 12, please italicize, “*S. suis*”;
- Page 4, line 17, please delete “of”;
- Page 4, line 30, please insert a comma after “others”
- Page 4, line 31, please replace “with” with –in-- and replace “horse” with –horses–;
- Page 4, line 33, please replace “with” with –in–;
- Page 4, line 34, please replace “septicaemia” with –septicemia–;
- Page 4, line 36, please replace “with” with –in–;
- Page 5, please delete lines 2-5;
- Page 5, line 6, before the first sentence, please insert -Within Lancefield groups R, S, and T, (and with ungrouped types),–;
- Page 5, line 16, please replace “carried out” with –performed–;
- Page 5, line 18, please replace “characterised” with --characterized–;
- Page 5, line 24, please replace “haemagglutinins” with --hemagglutinins–;
- Page 5, line 25, please replace “haemolysin” with –hemolysis,–;
- Page 5, line 28, please replace “polysaccharidic” with --polysaccharide–;
- Page 5, line 34, please replace “organisation” with –organization–;
- Page 5, line 35, please replace “functioning” with –function–;
- Page 5, line 36, please insert a comma after “*S. suis*”;
- Page 6, line 4, please insert –the-- after “that”;
- Page 6, line 10, please replace “polysaccharidic” with --polysaccharide–;
- Page 6, line 20, please replace “Therefor” with –Therefore–;
- Page 6, line 23, please replace both occurrences of “with” with –in–;
- Page 6, line 25, please replace “contributed” with –contribute–;
- Page 6, line 29, please replace “bacteraemia” with –bacteremia–;

Serial No. To Be Assigned

Page 7, line 4, please replace “colonised” with –colonized–;

Page 7, line 7, please replace “to” with –against–;

Page 7, line 9, please replace “the acquisition of” with –exposure to–;

Page 7, line 11, please replace “which” with –that–;

Page 7, line 14, please replace “e.g.” with –for example–;

Page 7, line 16, please replace “(CP)” with --(“CP”)–;

IN THE CLAIMS:

3. (Amended) The isolated or recombinant nucleic acid of claim 1 [or claim 2], wherein said isolated or recombinant nucleic acid is hybridized to a second nucleic acid encoding a gene derived from a *Streptococcus suis* serotype 1, 2, or 9 capsular gene cluster.

7. (Amended) A nucleic acid probe or primer derived from the isolated or recombinant nucleic acid of [any one of claims 1 to 6]claim 1, wherein said nucleic acid probe or primer allows species or serotype specific detection of *Streptococcus suis*.

9. (Amended) A diagnostic test kit comprising the nucleic acid probe or primer of claim 7 [or claim 8].

Serial No. To Be Assigned

10. (Amended) A protein or fragment thereof encoded by the isolated or recombinant nucleic acid of [any one of claims 1 to 6]claim 1.

18. (Amended) A vaccine comprising the recombinant *Streptococcus suis* mutant of claim 15 [or the microorganism of claim 16 or claim 17].

21. (Amended) The vaccine of claim 19 [or claim 20], wherein said Streptococcus mutant deficient in capsular expression is capable of surviving in an immune-competent host.

23. (Amended) The vaccine of [any one of claims 19 to 22]claim 19, wherein said Streptococcus mutant deficient in capsular expression expresses a *Streptococcus* virulence factor or antigenic determinant.

24. (Amended) The vaccine of [any of claims 19 to 23]claim 19, wherein said Streptococcus mutant deficient in capsular expression expresses a *non-Streptococcus* protein.

26. (Amended) A method for controlling or eradicating a Streptococcal disease in a population, said method comprising:
vaccinating subjects in said population with the vaccine of [any one of claims 18 to 25]claim 18.

27. (Amended) A method for controlling or eradicating a Streptococcal disease, said method comprising:
testing for the presence of encapsulated Streptococcal strains in a sample collected from at least one subject in a population partly or wholly vaccinated with a vaccine of [any one of claims 18 to 25]claim 19.

28. (Amended) A method for controlling or eradicating a Streptococcal disease

Serial No. To Be Assigned

comprising testing for the presence of capsule-specific antibodies directed against Streptococcal strains in a sample collected from at least one subject in a population partly or wholly vaccinated with a vaccine of [any one of claims 18 to 25]claim 19.

29. (Amended) A method for controlling or eradicating a Streptococcal disease in a population comprising:

selecting subjects in said population vaccinated with a vaccine according to [any one of claims 18 to 25]claim 19; and

testing a sample collected from at least one subject in said population for the presence of encapsulated Streptococcal strains and/or for the presence of capsule-specific antibodies directed against Streptococcal strains.

Please add the following new claims:

30. The nucleic acid of claim 2, wherein said serotype-specific central region encodes at least one enzyme or fragment thereof involved in polysaccharide biosynthesis.

31. A vaccine comprising the microorganism of claim 16.

32. The vaccine of claim 20, wherein said recombinant Streptococcus mutant has been produced by homologous recombination.

33. The vaccine of claim 21, wherein said mutant is capable of surviving at least at least 8-10 days in said host.

Remarks

The application is to be amended without prejudice or disclaimer as previously set forth and should not be viewed as narrowing or further limiting the claims. The amendments are sought to
